**FOR IMMEDIATE RELEASE**

**Countywide Preventive Maintenance Application of Scrub Seal and Micro-Surfacing is scheduled to begin in the North County starting on April 29 and will be in the South County starting on May 6.**

The Santa Barbara County Board of Supervisors has awarded the 2014/2015 Countywide Preventive Maintenance Application of Scrub Seal and Micro-Surfacing to Pavement Coatings Company for just over \$1.6 million. This project which is funded with Measure A Funds and General Funds contributed by the Board of Supervisors will resurface approximately 29 lane miles of County maintained roads as part of the County's annual Pavement Preservation Program.

The first stage of the project, which is the Scrub Seal, will begin in the North County in the Fourth and Fifth Supervisorial Districts, then work its way down to the Third and First Supervisorial Districts in the South County.

The next stage of the project, which is the Micro-Seal, will follow immediately afterwards, beginning again in the North County. This project is scheduled to be completed within 45 working days in both the North and South County.

This project started April 13, 2015 and should be completed by mid-late June, contingent upon weather conditions. Construction hours are 7:00 a.m. to 5:00 p.m., Monday thru Friday. Drivers are encouraged to use an alternate route when possible, and should be aware of reduced speed zones and increased traffic control when driving through the construction sites. Please watch for No Parking signs. Cars in violation of No Parking will be subject to being towed to facilitate the completion of the project.

For questions or concerns please contact us during regular business hours at 805-681-5796, or at 805-681-4990. You may also call our 24-hour Information Line at 805-681-4995. Updates will be posted at the following County of Santa Barbara, Public Works Department sites:
