FOR IMMEDIATE RELEASE

**Santa Ynez / Solvang Bike Path Improvements Project
Is Scheduled To Begin on Monday, June 1, 2015**

The County of Santa Barbara Public Works Department has awarded the Santa Ynez / Solvang Bike Path for \$143,198.00 to Granite Construction Company.

This project is located on the dedicated bike path north of Highway 246 between Alamo Pintado Road and Santa Ynez High School. It is funded by Measure A, which is used in part to help maintain or repair existing facilities within the county. This includes the repair and upgrading of Bike Paths throughout the County, for both safety and access issues.

This project will help facilitate this goal by repairing pot holes, patching failed asphalt areas along the path and resurfacing with an overlay, as well as providing new shoulder backing for the support of this pathway. The Bike Path will remain closed to the public during the construction of this project.

Construction is scheduled to begin on June 1, 2015 and should be completed by the end of June contingent upon weather conditions. The County's Public Works Department will administer and inspect the construction of this project.

Construction is Monday through Friday, between the hours of 7:00 am and 5:00 pm. The Department encourages the travelling public to be aware of detour routes, traffic control devices and flaggers throughout the construction site.

Public Works Department officials wish to thank local residents, pedestrians and the travelling public for their patience and cooperation during the construction of this project.

For further information you may call (805) 681-5697
