### FOR IMMEDIATE RELEASE

## **Construction of Countywide Overlay and Stress Absorbing Membrane Interlayer (SAMI); County Project No. 810549; All Supervisorial Districts**

The Santa Barbara County Board of Supervisors has awarded the Construction of Countywide Overlay and Stress Absorbing Membrane Interlayer (SAMI) to CalPortland Construction for just over \$3.5 million. This project which has Measure A funds as well as General funds contributed by the Board of Supervisors, will resurface approximately 18 lane miles of County maintained roads as part of the County's annual Pavement Preservation Program.

This project will include both conventional Hot Mix Asphalt (HMA) paving, as well as a 3-phase Stress Absorbing Membrane Interlayer (SAMI) process to resurface the roadway. This SAMI process includes; paving a leveling course to fill in the ruts and small holes in the road; applying a SAMI to bridge cracks in the existing pavement and placing a new asphalt concrete overlay. The SAMI waterproofs the roadway, helps reduce reflective cracking and extends the life of the pavement overlay.

This project starts on Monday, June 15, 2015 and should be completed by early September, contingent upon weather conditions. Construction hours are 7:00 a.m. to 5:00 p.m., Monday thru Friday. Drivers are encouraged to use alternate routes when possible, and should be aware of reduced speed zones and increased traffic control when driving through the construction sites. Please watch for No Parking signs. Cars will be subject to being towed to facilitate the completion of the project.

For questions or concerns, please contact us during regular business hours at (805) 681-5697 or (805) 681-4990. You may also call our 24-hour Information Line at (805) 681-4995. Updates and a list of streets are also available and will be posted at the following County of Santa Barbara, Public Works Department sites:

Website: <https://www.countyofsb.org/pwd/pwhome.aspx>
