105 East Anapamu Street

Remote testimony can also be given at the Santa Maria hearing room.

The Cannabis Land Use Ordinance and Licensing Program (the Project) will establish the regulations that will govern cannabis activities within the unincorporated County. The Project is intended to balance the diverse demands for cannabis products with the public health, safety, and welfare of the community, through the enactment of regulatory and enforcement controls. The Project will specify how, where, and how much cannabis and cannabis products may be cultivated, processed, manufactured, tested, distributed, and sold.

The Project is the subject of a Final Programmatic Environmental Impact Report (PEIR) that was prepared pursuant to the requirements of the California Environmental Quality Act (CEQA) and the County of Santa Barbara Guidelines for the Implementation of CEQA. To review the Final PEIR, please see:

longrange.sbcountyplanning.org/programs/Cannabis/cannabis.php

The Montecito Planning Commission, County Planning Commission, and Board of Supervisors will conduct public hearings regarding the Project and the Final PEIR, at the dates, times, and locations stated in this flyer. All interested parties are encouraged to attend the public hearings and provide testimony regarding the Project and the Final PEIR.
