We understand that everyone goes through difficult times, and we are here to be a resource. We are available to assist you before, during and after a crisis. The multi-disciplinary team includes therapists, case workers, peer recovery specialists and a psychiatrist. The team is available Monday-Sunday from 7 a.m. to 11 p.m.

Supportive Services

- Crisis intervention services
- Short-term case management
- Peer support
- Community referrals
- Psychiatric services
- Advocacy services

The team will support you to get connected to county and community resources.

Behavioral Health Crisis Triage Team

Supporting you when you need it most.
Mission of the Santa Barbara County Department of Behavioral Wellness

The mission of the Department of Behavioral Wellness is to promote the prevention of and recovery from addiction and mental illness among individuals, families and communities, by providing effective leadership and delivering state-of-the-art, culturally competent services.

_Triage Team Goals_

Our goal is to assist you when you are in distress. We will connect you to appropriate services which promote mental health, wellness and recovery. We will empower you to take control and improve your quality of life. In addition, we work with you to help prevent hospitalization and other psychiatric emergencies.

To obtain support for yourself:

*Contact ACCESS Line at 1-888-868-1649 or walk into the CARES Clinic.*

**2034 De La Vina Street, Santa Barbara, 93105**

To obtain support for someone experiencing a mental health crisis:

There are three possibilities:

1. If the crisis places anyone in immediate danger, call **911**.

2. If the crisis does not involve immediate danger, and if the person in crisis has insurance coverage through a health plan, call the _health plan_ to get a referral to a covered mental health provider.

3. For all others, call _ACCESS Line at (888) 868-1649_. The call is toll free, and someone will answer to assist you 24 hours per day, seven days per week.

Suggestions to Reduce Your Stress

- Breathe Deeply
- Review your body for stress indicators
- Seek medical services if necessary
- Reach out to a significant other
