## Request/Question:

How many of the 50 employees listed as Admin/Support and Fire Prevention are covered by a Safety Member Pension and why?

Of the 34.45 FTEs for Fire Administration and Support 13 FTEs are in a Safety Pension Plan

Of the 16.05 FTEs in Fire Prevention 8 FTEs are in a Safety Pension Plan.

The majority of these positions (17 of 21) are in Fire management and supervisor job classifications, which have specific technical skills and practical experience needed to lead and manage complex fire operations safely and efficiently.

The Fire Department's has utilized non-safety job classes where possible; an example is the recent switch of the Fire Code and Land Use Development/Planning Inspector positions from safety to non-safety job classes.
