To: Behavioral Wellness and Community Provider Staff
From: Quality Care Management
Subject: Clinical Assessment and Treatment Plan Training

We will be temporarily suspending the monthly Clinical Assessment and Treatment Planning Training. In the very near future, we will be rolling out new templates and plan to train staff across the county after the templates are done being piloted. Once our system is trained in the new templates, we will again offer the Clinical Assessment and Treatment Planning Training. Please stay tuned for upcoming announcements regarding the new template training.

Please note: If you are currently enrolled in the Clinical Assessment and Treatment Planning Training, you will be dropped from the course date in Relias. Please do not worry when you see this has happened.

Thank you for your patience and flexibility as we make this change.
