Subject: Data Notebook 2017 follow-up (CALBHBC)

Dear Alice,

Now that the 2017 CA Mental Health Planning Council (CMHPC) **Data Notebook** has been released, CALBHB/C has been asked to check in with counties to **make sure you have received your copy**. Please let us know if you have not, and we will inform the CMHPC of your current contact information.

If you have received it, we encourage your local mental/behavioral health board members to complete it. This is your board/commission's opportunity to respond to the data presented, and understand the needs of your community. This year's Data Notebook focuses on Older Adults.

In some counties/jurisdictions, ad hoc committees are formed to complete this questionnaire. Speakers and staff can be invited to your meeting and/or meet with the ad hoc. Often designated staff members meet with the ad hoc to help address the questions.

Information on prior Data Notebooks (including completed Data Notebooks) are at our website:

<http://www.calbhbc.com/data-notebooks.html> .

Thanks to all the local behavioral and mental health boards for your good work!

Best Regards,

Theresa Comstock

President, CA Association of Local Behavioral Health Boards & Commissions
