Sheriff Community Corrections Input Group - Commissioner Truman reports that he attended his first meeting and found the discussions very interesting. A breakdown of complaints by categories is provided and found that the main complaints are around medication, medical, dental, meals and mental health. Commissioner Pearson reports that one of the biggest issues continues to be the gap between the point that inmates get released with no smooth transition into receiving services and follow ups from the Department. More department involvement is needed so that folks do not fall through the cracks.

Central Coast Collaborative on Homelessness (C3H) Update - Chair Byrne reports that she has been involved with C3H, helping the chronically homeless.

Resiliency Interventions for Sexual Exploitation (RISE) – collaborative putting together housing units, jobs, books, gym memberships, and employment among other identified productive projects. Commissioner Truman suggested that this organization may be a good resource for this program, Department of Rehabilitation and Behavioral Wellness collaborative.

Alcohol & Drug Program Supervisor, Stephanie Diaz offered to go out with Commission members to do their site visits to introduce them to County Based Organizations (CBO’s).

Unfinished Business

8. **BWC Bylaws Update** Ashley Kruzel provides the following update on bylaws:

The Chair and Vice Chair may assign commission membership to committees per article VI; if the board believes they need to state it more clearly, and then language can be added to Article V.

Bylaws were drafted by the CEO's office with input from Behavioral Wellness and County Counsel. Articles 2 - 4 reflect the minimum state requirements of the BWC.

Ms. Kruzel explains that the executive committee was removed because the former Article 5 had Brown Act Issues; it was left open for determination of the new board through the amendment process in Article VII. The mentions of the executive committee were unintentionally left in there - if the board is to not agree to an Executive Committee then they will need to remove the mentions and re-assign the membership accountability tasks to someone else. If the board was to agree to an executive committee then they will need to define the committee and fix the Brown Act Issues. Other reason why it was left out, the executive committee could act when this board is not in session which violates Brown Act.

Pro Position - Commissioner Winter comments that the regular BWC meeting time is not sufficient to discuss next meeting’s agenda and prioritize topics with chair and other attendees. She would like to have a more democratic process. Commissioners Truman and Huffines agree.

Con Position Chair Byrne does not see the need to have another meeting and use additional department staff time. The current process to set meeting agendas has been working well for the past eight months; at the end of each meeting everyone gets an opportunity to request agenda items for upcoming meetings which are all tracked and to date, most agenda requests have been scheduled as peoples schedules allow. Commissioner Weaver feels that by having a separate meeting is opposite of democratic process by leaving the majority of members out of the conversation.

Action: Commissioner Winter made a motion to establish BWC Executive Committee. Commissioner Truman seconded. Commissioner Wayne Olson abstained. Vote was a tie, motion failed.
