

QCM Tidbits

Mental Health Program Addition

HIPAA

Have You Completed Your annual HIPAA Privacy/Security training for 2018?

The only courses which meet the federally mandated training requirements for the HIPAA Privacy/Security training are those assigned in the department's E-Learning Platforms RELIAS Portal and RELIAS Academy. All staff are urged to complete the training as soon as possible. Please remember that the training can be accessed 24/7 from any computer with internet access.

DEADLINE FOR COMPLETING THE TRAINING IS NOVEMBER 30, 2018
****Attention All Staff****

If you have completed the training course "Mandated Annual HIPAA Training-2018" in RELIAS in 2018 then you have fulfilled your HIPAA training obligation for this year. If you are unsure and want to confirm if you have met the requirement, the easiest way to check this is to log on to RELIAS and check your learning transcript for 2018.

Beneficiary notices and brochures

All of our Clinics, Community Based Organizations, and Network Providers are required to provide beneficiary notices and brochures in their lobbies. During a visit to the Lompoc Adult Clinic, our Privacy Officer, Stephanie Diaz, found that the Lompoc Adult Outpatient Clinic was in 100% compliance with their beneficiary notices and brochures. Brenda Villasenor and Brenda Toledo do an excellent job of keeping these materials up to date.

Please check your beneficiary notices and brochures today to make sure you have the updated beneficiary materials displayed in your lobby. Check out the Lompoc Adult Clinic's display. You can find all of the beneficiary notices and brochures at the BWell website:
