Per the Department of Health Care Services (DHCS) DMC-ODS Intergovernmental Agreement and the Department of Behavioral Wellness DMC-ODS Residential Treatment Services Policy #7.007, Patient Education may be provided as a component of residential treatment services. **Patient Education** involves providing research-based education on addiction, treatment, recovery, and associated health risks. Per DHCS Information Notice 19-031, Patient Education is not limited to the two-to-twelve group size.

In order to allow Residential Treatment programs the ability to provide Patient Education to more than twelve individuals, the following template and procedure code has been developed in ADP-CG to accommodate this:

- Group Note Template: ODS Patient Education
- Procedure: Patient Education- Non-Bill

The screenshot shows the ADP-CG system interface. At the top, it says "Service Entry, Group" with a search bar and a "Clients" dropdown. Below that, it says "Welcome: Melissa Wilkins" and "Group: Melissa's random (3317) Title: ODS Patient Education". The main section is titled "Group Members" and shows 2 members. The table below lists the members:
