Free live Broadcast/Webcast hosted by the California Department of Public Health (CDPH) and University of California Television (UC-TV).  **CME Provided by UC Davis Office of Continuing Medical Education.**  [See below for more on CME]

Have you heard? A new California state law requires all 7th to 12th graders to receive a Tdap immunization before school starts this Fall. By immunizing adolescents with Tdap now, clinicians can protect them against the ongoing threat of pertussis while meeting the upcoming legal requirement and reducing the back-to-school rush.

This seminar features speaker Robert Schechter, MD, Section Chief at the CDPH Immunization Branch. Recommended for physicians and allied health care personnel in clinical practice, particularly pediatricians and family practice physicians, physician’s assistants, nurses, and medical assistants, community clinic staff, and immunizing pharmacists.

**This seminar will cover:**
1. A summary of pertussis disease and pertussis vaccines
2. What you need to know about the new law (AB 354)
   - How to accurately document Tdap vaccination and medical exemptions
   - Tools and templates to help you inform patients and parents
   - Strategies to get your adolescent patients vaccinated—before school starts next fall
3. Q&A with the speaker

Preregister at [www.shotsforschool.org/webinar/register/](http://www.shotsforschool.org/webinar/register/). After preregistration you will receive an email confirmation with a link to this event. To avoid technical glitches, it is highly recommended to test your computer the DAY BEFORE the seminar.

CME will be provided by UC Davis Office of CME for those participating in the live program and for those who view the program after it is archived on UCTV. This education activity is eligible for a maximum of 1.0 AMA PRA Category 1 Credit(s)TM. Physicians should only claim credit commensurate with the extent of their participation in the activity. This credit may also be applied to the CMA Certification in Continuing Medical Education. Preregistration is required for CME.

After the live broadcast/webcast, the program will be archived online for on-demand viewing. The archived program will be available online at [www.uctv.tv/CApertussis](http://www.uctv.tv/CApertussis) by **2/16/2011. [Note: This link will not work before that date.]**
