The Responsible Pet Ownership Alliance works collaboratively to help Santa Barbara County Pet Owners be responsible. Responsible pet ownership includes 4 components:

- **Vaccinate:** Vaccinate your pet(s) regularly in order to protect them against many contagious viruses and keep them healthy longer.
- **Spay/Neuter:** The benefits include: preventing health problems, decreasing your pet’s urge to roam, and helping decrease the number of unwanted pregnancies, therefore, the number of animals in shelters.
- **Microchip:** A microchip is a permanent identification for pets. Microchipped pets can be easily identified and returned if found by a shelter or veterinary office.
- **License:** A license is required by state and local laws and it is your pet’s ticket home. Pets wearing license can be brought straight home by Animal Control Officers.
