Low-cost Vaccination Clinic
At the Wags n’ Whiskers Festival

Project PetSafe encourages Santa Barbara County resident dog owners to bring their four legged family members to the Project PetSafe Licensing Clinic on Saturday, October 1st, 2016, 9 a.m. to 1 p.m. It is part of the Wags n’ Whiskers Festival at the Santa Barbara City College’s West Campus at the Great Meadow.

Project PetSafe is a program within Santa Barbara County Animal Services that advocates Responsible Pet Ownership. Being a responsible pet owner entails keeping your dogs’ license current and vaccinations up to date. For many dog owners, dogs are cherished and loved members of the family, so it is important to help make sure they are free from disease and wearing their Santa Barbara County Animal License Tag. By keeping your pets healthy, it also reduces the risk of exposure to all family members. When your dog is licensed and wearing the animal license tag, they can be quickly reunited with their families.

The Licensing Clinic provides:
- Affordable vaccinations:
  - Rabies $6
  - DHPP $14
  - Bordetella $14
- Microchipping - $30 for licensed dogs
- Information about affordable spay and neuter services
- Santa Barbara County Dog Licenses
  - A current rabies certificate and written proof that the dog is spayed or neutered are required to obtain an altered dog license. A rabies certificate and a Veterinary Certificate signed by a licensed veterinarian are required to obtain an unaltered dog license.
- All dogs must be on leash. No appointments needed.
- Cash (no bills over $50) and checks accepted, no debit/credit cards

Project PetSafe is committed to bringing affordable vaccinations; spay/neuter services and licenses to your community. Remember it is your responsibility as a Responsible Pet Owner to keep your license current. A license is your pet’s ticket home.
