

HEALTH OFFICER ORDER NO. 2020-10.3
COUNTY OF SANTA BARBARA

FOR THE CONTROL OF COVID-19
FACE COVERINGS
WITHIN SANTA BARBARA COUNTY

Health Officer Order No. 2020-10.3 Supersedes and Replaces Health Officer Order No. 2020-10.2

Effective Date: September 18, 2020, 5:00pm PDT

(Changes are underlined.)

Please read this Order carefully. Violation of or failure to comply with this Order may constitute a misdemeanor punishable by fine of up to \$1,000, imprisonment, or both. (Health and Safety Code §§ 101029, 120295 et seq.) Violators are also subject to civil enforcement actions including fines or civil penalties per violation per day, injunctive relief, and attorneys' fees and costs.

This Health Officer Order No. 2020-10.3 supersedes and replaces Health Officer Order No. 2020-10.2 that was effective August 20, 2020. Nothing in this Health Officer Order No. 2020-10.3 supersedes State Executive Orders or State Health Officer Orders or guidance provided by the California Department of Public Health available at: <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/Guidance.aspx#>

Summary: As required by the State Public Health Officer as of June 18, 2020, revised June 29, 2020, this Health Officer Order orders individuals in the County of Santa Barbara continue to wear face coverings when in high-risk situations that may contribute to the spread of COVID-19, unless an exemption applies.

WHEREAS, on March 4, 2020, Governor Newsom declared a state of emergency for conditions caused by a novel coronavirus, COVID-19, and on March 11, 2020, the World Health Organization declared COVID-19 a global pandemic, and on March 12, 2020, the County of Santa Barbara declared a local emergency and a local health emergency in relation COVID-19 in the community; and

WHEREAS, there has been significant community-based transmission in California; and

WHEREAS, in the County of Santa Barbara as well as throughout California and the nation, there are insufficient quantities of critical healthcare infrastructure, including hospital beds, ventilators and workers, capable of adequately treating mass numbers of patients at a single time – should the virus spread unchecked; and

WHEREAS, in direct response to the lack of healthcare infrastructure, governments across the nation are taking actions to slow the spread of COVID-19 in order to “flatten the curve” of infection and reduce the numbers of individuals infected at any one time by minimizing situations where the virus can spread; and

WHEREAS, in furtherance of this effort, on March 19, 2020, Governor Newsom issued Executive Order N-33-20 requiring all persons residing in the State to remain in their homes or places of residence, except as needed to maintain the continuity of operations for critical infrastructure (the “State Stay-at-Home Order”); and

WHEREAS, on May 4, 2020, Governor Newsom issued Executive Order N-60-20 to allow reopening of lower-risk businesses and spaces (“Stage Two Resilience Roadmap”) and to allow a County to pursue a variance to move further into the stage upon notification and certification through submission of a written attestation to the California Department of Public Health (CDPH); and

WHEREAS, on May 20, 2020, the CDPH posted the State’s website the County of Santa Barbara’s attestation to move further into the Stage Two Resilience Roadmap which indicates the County may proceed to allow an increase in business activities; and

WHEREAS, on June 18, 2020, and revised on June 29, 2020, the CDPH mandated people in California to wear face coverings when they are in high-risk situations; and

WHEREAS, on August 28, 2020 the State Public Health Officer ordered an update to the framework for COVID-19 response, which is known as California’s Plan for Reducing COVID-19 and Adjusting Permitted Sector Activities to Keep Californians Healthy and Safe. Governor Newsom introduced this framework as the Blueprint for a Safer Economy, in which counties are assigned into risk-based tiers based on the COVID-19 epidemiological information for each county, and assigned Santa Barbara County to Tier One (purple / widespread) as part of this Blueprint, where it currently remains; and

WHEREAS, the Centers for Disease Control and Prevention and the CDPH find the use of face coverings may reduce asymptomatic transmission of COVID-19 and reinforce physical distancing, and that wearing a face covering combined with physical distancing of at least six feet, and frequent hand washing, will lessen the risk of COVID-19 transmission by limiting the spread of respiratory droplets; and

WHEREAS, the County Health Officer finds (1) a significant portion of individuals with COVID-19 are asymptomatic and can transmit the virus to others; (2) those who may develop symptoms can transmit the virus to others before showing symptoms; (3) scientific evidence shows COVID-19 is easily spread and public activities can result in transmission of the virus; (4) face coverings are necessary because COVID-19 is highly contagious and is spread through respiratory droplets that are produced when an infected person coughs, sneezes, or talks. These droplets may land on other people or be inhaled into their lungs, may land on and attach to surfaces where they remain for days, and may remain viable in the air for up to three hours, even after the infected person is no longer present; (5) when worn properly, face coverings have the potential to slow the spread of the virus by limiting the spread of respiratory droplets; and (6) distinctions made in this Order are to minimize the spread of COVID-19 that could occur through proximity and duration of contact between individuals; and

WHEREAS, the intent of this Order is to temporarily require the use of Face Coverings to slow the spread of COVID-19 in Santa Barbara County to the maximum extent possible. All provisions of this Order should be interpreted to effectuate this intent.

ACCORDINGLY, UNDER THE AUTHORITY OF CALIFORNIA HEALTH AND SAFETY CODE SECTIONS 101040, 101085, AND 120175, TITLE 17 CALIFORNIA CODE OF REGULATIONS SECTION 2501, THE HEALTH OFFICER OF THE COUNTY OF SANTA BARBARA ORDERS:

1. This Order 2020-10.3 is effective 5:00 p.m. (PDT) September 18, 2020 and continuing until 5:00 p.m. (PDT), on October 17, 2020 or until it is extended, rescinded, superseded, or amended in writing by the County of Santa Barbara Health Officer ("Health Officer"). This Order applies in the incorporated and unincorporated areas of Santa Barbara County ("County").
2. As used in this Order, a "face covering" means a covering made of a variety of materials such as cloth, fabric, cotton, silk, linen, or other permeable materials, that fully covers the tip of a person's nose and mouth, without holes, including cloth face masks, surgical masks, towels, scarves, and/or bandanas. This Order does not require the public to wear medical-grade masks, including masks rated N95, KN95, and their equivalent or better.

A face covering with a one-way valve (typically a raised plastic cylinder about the size of a quarter on the front or side of the mask) that provides a preferential path of escape for exhaled breath shall not be used as a face covering under this Order because the valve permits respiratory droplets to easily escape which places others at risk.

3. People in Santa Barbara County shall wear face coverings when they are in the following high-risk situations, unless an exemption applies:
 - a. In any indoor public space where other people (except for members of the person's own household or residence) are present when unable to physically distance by six or more feet from those others (regardless of whether or not the space is publicly or privately owned, so long as the public has access by right or invitation, whether express or implied, whether by payment or not).
 - b. Obtaining services from the healthcare sector in settings such as a hospital, pharmacy, medical clinic, laboratory, physician or dental office, veterinary clinic, or blood bank, unless directed otherwise by an employee or healthcare provider.
 - c. While outdoors in public spaces when maintaining a physical distance of 6 feet from persons who are not members of the same household or residence is not feasible.
 - d. When waiting in line, whether indoors or outdoors.
 - e. Waiting for, or riding, on public transportation or paratransit, or while in a taxi, private car service, or ride-sharing vehicle.
 - f. Driving, or operating, any public transportation or paratransit vehicle, taxi, or private car service or ride-sharing vehicle when passengers are present. When no passengers are present, face coverings are strongly recommended.
 - g. Engaged in work, whether at the workplace or performing work off-site, when:
 - i. Interacting in-person with any member of the public;
 - ii. Working in any space visited by members of the public, regardless of whether anyone from the public is present at the time;
 - iii. Working in any space where food is prepared or packaged for sale or

distribution to others;

- iv. Working in, or walking through common areas, such as hallways, stairways, elevators, and parking facilities; and
- v. In any room or enclosed area where other people (except for members of the person's own household or residence) are present when unable to physically distance by six or more feet from those others.

4. The following individuals are exempted from this Order:

- a. Persons younger than two years old.
- b. Persons with a medical condition, mental health condition, or disability that prevents wearing a face covering. This includes persons with a medical condition for whom wearing a face covering could obstruct breathing or who are unconscious, incapacitated, or otherwise unable to remove a face covering without assistance. Persons exempted from wearing a face covering due to a medical condition, mental health condition, or disability who are employed in a job involving regular contact with others should, if the condition allows, wear a non-restrictive alternative, such as a face shield with a drape on the bottom edge.
- c. Persons who are hearing impaired, or communicating with a person who is hearing impaired, where the ability to see the mouth is essential for communication.
- d. Persons for whom wearing a face covering would create a risk to the person related to their work, as determined by local, state, or federal regulators or workplace safety guidelines.
- e. Persons who are obtaining a service involving the nose or face for which temporary removal of the face covering is necessary to perform the service.
- f. Persons who are seated at a restaurant or other establishment that offers food or beverage service, while they are eating or drinking, provided that they are able to maintain a distance of at least six feet away from persons not seated at or serving their table.
- g. Persons who are engaged in outdoor work or recreation such as swimming, walking, hiking, bicycling, or running, when alone or with household members, and when they are able to maintain a distance of at least six feet from others who are not part of their household or residence.
- h. Persons who are incarcerated. Prisons and jails, as part of their mitigation plans, will have specific guidance on the wearing of face coverings or masks for both inmates and staff.

5. If you cannot afford a face covering one will be provided to you free-of-charge at the following locations:

- a. Santa Barbara County Administration building lobby, 105 E Anapamu St, Santa Barbara
- b. Santa Barbara Health Care Center, 345 Camino del Remedio, Santa Barbara
- c. Santa Maria Health Care Center, 2115 Centerpointe Parkway, Santa Maria
- d. Face coverings may also be available by calling 211 to access offers by community groups at no cost.

- e. The Health Officer requests cities within the County of Santa Barbara provide face coverings free-of-charge to those cannot afford them.

This Order is issued as a result of the worldwide pandemic of COVID-19 which has infected at least 29,701,327 individuals worldwide, in 213 countries and territories, including 8,741 cases, and 107 deaths in the County, and is implicated in over 938,198 worldwide deaths.

This Order is issued based on evidence of increasing transmission of COVID-19 both within the County and worldwide, scientific evidence regarding the most effective approach to slow transmission of communicable diseases generally and COVID-19 specifically, as well as best practices as currently known and available to protect the public from the risk of spread of or exposure to COVID-19.

This Order is issued because of the propensity of the virus to spread person to person and also because the virus physically is causing property loss or damage due to its proclivity to attach to surfaces for prolonged periods of time.

This Order is intended to reduce the likelihood of exposure to COVID-19, thereby slowing the spread of COVID-19 in communities worldwide. As the presence of individuals increases, the difficulty and magnitude of tracing individuals who may have been exposed to a case rises exponentially.

This Order is issued in accordance with, and incorporates by reference: the March 4, 2020 Proclamation of a State Emergency issued by Governor Gavin Newsom; the March 12, 2020 Declaration of Local Health Emergency and Proclamation of Emergency based on an imminent and proximate threat to public health from the introduction of novel COVID-19 in the County; the March 17, 2020 Resolution of the Board of Supervisors ratifying the County Declaration of Local Health Emergency and Proclamation of Emergency regarding COVID-19; the guidance issued on March 11, 2020 by the California Department of Public Health regarding large gatherings of 250 people or more; Governor Gavin Newsom's Executive Order N-25-20 of March 12, 2020 preparing the State to commandeer hotels and other places of temporary residence, medical facilities, and other facilities that are suitable as places of temporary residence or medical facilities as necessary for quarantining, isolating or treating individuals who test positive for COVID-19 or who have had a high-risk exposure and are thought to be in the incubation period; the March 13, 2020 Presidential Declaration of a National Emergency due to the national impacts of COVID-19; the guidance issued on March 15, 2020 by the Centers for Disease Control and Prevention, the California Department of Public Health, and other public health officials through the United States and around the world recommending the cancellation of gatherings involving more than fifty (50) or more persons in a single space at the same time; the March 16, 2020 order of the State Public Health Officer prohibiting all gatherings with expected presence above ten (10) individuals; Governor Newsom's Executive Order N-33-20 of March 19, 2020 ordering all persons to stay at home to protect the health and well-being of all Californians and to establish consistency across the state in order to slow the spread of COVID-19; the March 22, 2020, Presidential Declaration of a Major Disaster in California beginning on January 20, 2020 under Federal Emergency Management Agency (FEMA) Incident DR-4482-CA; and, Governor Newsom's Executive Order N-60-20 of May 4, 2020 to allow reopening of lower-risk businesses and spaces ("Stage Two"), and then to allow reopening of higher-risk businesses and spaces ("Stage Three"), and directing the Public Health Officer to establish criteria and procedures to determine whether

and how particular local jurisdictions may implement public health measures that depart from the statewide directives of the State Public Health Officer; the June 18, 2020, as revised on June 29, 2020, CDPH guidance requiring people in California to wear face coverings when they are in high-risk situations; the July 13, 2020 State Public Health Officer Order; and the August 28 State Public Health Officer Order regarding California's Plan for Reducing COVID-19 and Adjusting Permitted Sector Activities to Keep Californians Healthy and Safe (also known as the Blueprint for a Safer Economy).

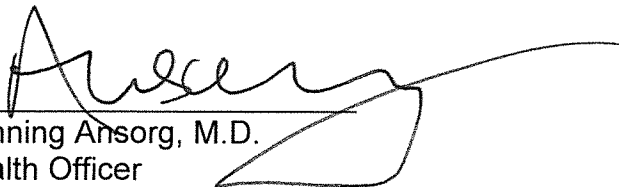

This Order is made in accordance with all applicable State and Federal laws, including but not limited to: Health and Safety Code sections 101040 and 120175; Health and Safety Code sections 101030 et seq., 120100 et seq.; and Title 17 of the California Code of Regulations section 2501.

If any provision of this Order or the application thereof to any person or circumstance is held to be invalid by a court of competent jurisdiction, the remainder of the Order, including the application of such part or provision to other persons or circumstances, shall not be affected and shall continue in full force and effect. To this end, the provisions of this Order are severable.

The violation of any provision of this Order constitutes a threat to public health. Pursuant to Government Code sections 26602 and 41601 and Health and Safety Code sections 101029 and 120295, the Health Officer requests that the Sheriff and all chiefs of police in the County ensure compliance with and enforce this Order. Per Health and Safety Code section 101029, "the sheriff of each county, or city and county, may enforce within the county, or the city and county, all orders of the local health officer issued for the purpose of preventing the spread of any contagious, infectious, or communicable disease. Every peace officer of every political subdivision of the county, or city and county, may enforce within the area subject to his or her jurisdiction all orders of the local health officer issued for the purpose of preventing the spread of any contagious, infectious, or communicable disease. This section is not a limitation on the authority of peace officers or public officers to enforce orders of the local health officer. When deciding whether to request this assistance in enforcement of its orders, the local health officer may consider whether it would be necessary to advise the enforcement agency of any measures that should be taken to prevent infection of the enforcement officers."

Copies of this Order shall promptly be: (1) made available at the County Public Health Department; (2) posted on the County Public Health Department's website (publichealthsb.org); and (3) provided to any member of the public requesting a copy of this Order.

IT IS SO ORDERED:

Henning Ansorg, M.D.
Health Officer
Santa Barbara County Public Health Department
