## I. Executive Summary

MED-Project LLC (“MED-Project”) operates a Product Stewardship Plan for Unwanted Medicine from Households (“Plan”) in the County of Santa Barbara (“Jurisdiction”) under the Santa Barbara County Extended Producer Responsibility Stewardship for the Collection and Disposal of Unwanted Covered Drugs Ordinance sections 18C-12 to 18C-30 (“Ordinance”). This 2018 County of Santa Barbara Annual Report (“Report”) describes the activities of MED-Project between February 24, 2018, and December 31, 2018 (the “Reporting Period”)<sup>1</sup> in compliance with Ordinance Section 18C-21(D). All capitalized terminology not defined in this Report is derived from the approved Plan dated March 1, 2018.

MED-Project’s initial Plan was conditionally approved on August 24, 2017. A request for an extension to begin Plan implementation was made on November 17, 2017 and approved by the Santa Barbara County Public Health Department (“Department”) on December 26, 2017. A revised Plan was submitted on March 1, 2018 and approved by the Department on March 29, 2018. A request was made on May 25, 2018, to modify the Unwanted Medicine Standard Mail-Back Package disposal facility in the Plan dated March 1, 2018 and was approved by the Department on June 22, 2018. A request was made on June 12, 2018, to modify the Unwanted Medicine Inhaler Mail-Back Package disposal facility and was approved by the Department on June 22, 2018. A notice of reactivation of Unwanted Medicine Mail-Back Package Distribution was sent to the Jurisdiction on June 22, 2018.

Unwanted Medicine collection began in early 2018. During the Reporting Period, MED-Project’s Program collected and disposed of “Unwanted Medicine” (as defined in Plan Section V) from 32 Kiosk Drop-Off Site locations.

During 2018, priority was given to establishing Kiosk Drop-Off Sites and performing outreach to eligible pharmacies and Law Enforcement Agencies (“LEAs”) throughout the Jurisdiction. Kiosks were installed in pharmacies and LEAs that meet all local, state, and federal requirements and that executed agreements with MED-Project. In addition, outreach and educational materials, including signage and/or brochures, were distributed to new Kiosk Drop-Off Sites that were activated during the Reporting Period.

As outlined in the approved Plan, the ultimate goal of the Program is to provide Jurisdiction Residents with convenient, safe, and accessible methods to dispose of Unwanted Medicine. MED-Project anticipates a steady increase in Kiosk Drop-Off Sites throughout 2019 as a result of Program activities during the Reporting Period, especially if there is increased retail chain pharmacy participation in the Program.

MED-Project continues to communicate with Kiosk Drop-Off Site Hosts to distribute outreach materials upon request, review procedures as needed, and improve overall Program design.

The following sections of the Report respond to specific reporting requirements in Ordinance Section 18C-21(A). Each section of the Report restates the corresponding Ordinance requirement and provides the required information.

---

<sup>1</sup> MED-Project initiated operations on February 24, 2018. As a result, the Reporting Period begins on February 24, 2018, in alignment with the start of operations in the Jurisdiction.

## II. Participating Producers

*Ordinance Sec. 18C-21(A)(1): "A list of Producers participating in the stewardship plan"*

See Appendix A; List of Program Participants.

## III. Collection Method and Weight

*Ordinance Sec. 18C-21(A)(2): "The amount, by weight, of unwanted covered drugs collected, including the amount by weight from each collection method used"*

### A. Kiosks

- A total of 8,995 pounds of Unwanted Medicine was collected via Kiosk Drop-Off Sites.

### B. Mail-Back Packages

- There were no returned Standard, Inhaler, or Injector Mail-Back Packages.

### C. Total Weight of Collected Unwanted Medicine

- A total of 8,995 pounds of Unwanted Medicine was collected through all methods.

## IV. Kiosk Drop-Off Locations, Mail-Back Package Distribution, and Collection Events

*Ordinance Sec. 18C-21(A)(3)-(6): "(3) A list of drop-off sites; (4) The number of mailers provided; (5) The retail pharmacies where mailers were provided, if applicable; (6) The dates and locations of collection events held, if applicable"*

### A. List of Drop Off Sites

See Appendix B; Kiosk Drop-Off Site Locations.

### B. Number of Mail-Back Packages Provided to Disabled and/or Home-Bound Residents

- There were no Standard Mail-Back Packages, Inhaler Mail-Back Packages, or Injector Mail-Back Packages distributed directly to Residents during the reporting period.

### C. Mail-Back Package Distribution Locations

- There were no Mail-Back Distribution Locations during the Reporting Period.

### D. Take-Back Events

- There were no collection events performed during the Reporting Period.

## V. Disposal and Transporter Information

*Ordinance Sec. 18C-21(A)(7): "The transporters used and the disposal facility or facilities used for all unwanted covered drugs"*

### A. Disposal Facility Information

See Appendix C; Disposal Facilities.

### B. Transporter Information

See Appendix D; Transporters.

## VI. Safety and Security Report

*Ordinance Sec. 18C-21(A)(8): “Whether any safety or security problems occurred during collection, transportation or disposal of unwanted covered drugs during the reporting period and, if so, what changes have or will be made to policies, procedures or tracking mechanisms to alleviate the problem and to improve safety and security in the future”*

See Appendix E; Safety and Security Report.

## VII. Educational Efforts and Public Outreach

*Ordinance Sec. 18C-21(A)(9): “A description of the public education, outreach and evaluation activities implemented during the reporting period, including the results of biennial survey pursuant to section 18C-17(A)(5) if applicable for the reporting period”*

### A. Outreach Activities

During the Reporting Period, MED-Project provided print and digital advertisement campaigns; distributed signage, brochures, and flyers; and posted information on social media sites and the MED-Project Website. MED-Project Website information and statistics are provided in Appendix F and G, respectively.

MED-Project provided disposal instructions for kiosks and mail-back packages. In addition, MED-Project maintained a website and Call Center with a toll-free number to provide information pertaining to MED-Project disposal options and outreach materials. The website, toll-free number, and outreach materials, such as posters and brochures, were available in English and Spanish. See Appendix H for examples of brochures and posters. Appendix I provides brochure and poster distribution information.

A list of social media activity is provided in Appendix J.

### B. Promotion Media

MED-Project used various media to promote the collection program, including the MED-Project Website, digital marketing, social media, newspapers, and email blasts. The reach percentage for each campaign is provided in the Media Outreach Summary. See Appendix K.

The list below provides detailed information of all media promoting the Program during the Reporting Period:

1. The Independent (print advertisements)
2. Independent.com (digital advertisements)
3. Multiple Publishers (static and digital advertisements)
4. MED-Project Facebook page (social media)
5. MED-Project Twitter page (social media)
6. Email blasts (MED-Project Website)

See Appendix F; MED-Project Website Pages.

See Appendix G; Website Statistics.

See Appendix H; MED-Project Brochure and Posters.

See Appendix I; Brochure and Poster Distribution.

See Appendix J; Social Media and Email Promotion Activity.

See Appendix K; Media Outreach Summary.

### C. Biennial Survey

Consistent with Ordinance Section 18C-17(A)(5), the first biennial survey will be conducted in 2019.

## VIII. Packaging Recycling

*Ordinance Sec. 18C-21(A)(10): "A description of how collected packaging was recycled to the extent feasible, including the recycling facility or facilities used"*

As described in the Plan, while drug packaging is expected to constitute a significant amount of the waste incinerated under the Program, MED-Project has concluded that separation of inner and/or outer packaging from Unwanted Medicine and/or recycling of packaging would raise three significant concerns:

1. Separating and recycling drug packaging could result in the disclosure of confidential patient information appearing on prescription drug packaging;
2. Separating and recycling drug packaging could increase the potential for releases and leakage of Unwanted Medicine; and
3. Separating and recycling drug packaging could increase diversion risk by adding additional steps to the collection process and, because drug packaging is often used in drug counterfeiting, the drug packaging could be a diversion target itself.

For these reasons, the Program does not provide for the separation and recycling of packaging from Unwanted Medicine.

MED-Project education and outreach materials instruct residents to return Unwanted Medicine at a Kiosk Drop-Off Site, via Mail-Back Services, or at a Take-Back Event, in its original container or in a sealed bag. These materials encourage residents who transfer their Unwanted Medicine in a sealed bag to recycle all remaining packaging.

## IX. Program Goals

*Ordinance Sec. 18C-21(A)(11): "A summary of the stewardship plan's goals, the degree of success in meeting those goals in the past year, and, if any goals have not been met, what effort will be made to achieve the goals in the next year"*

### A. Collection Goals and Collector Outreach

MED-Project satisfied the Service Convenience Goals in Ordinance Section 18C-16(B)(1) during the Reporting Period. An increase in retail chain participation and newly established Kiosk Drop-Off Sites served to meet the Service Convenience Goals for the Reporting Period solely with Kiosk Drop-Off Sites, as provided in Appendix L; Service Convenience Goal Results.

MED-Project has met the Service Convenience Goals through establishing Kiosk Drop-Off Sites. During the Reporting Period, MED-Project conducted outreach and issued letters to all non-participating or new retail pharmacies on April 21, 2018. Phone calls and emails were sent to eligible sites that did not respond to the letter. Interested non-participating sites were contacted monthly until either the site began participating in the Program or the site indicated they no longer want to be considered for participation.

According to the Plan, the collection goal amount for 2018 was anticipated to be approximately 9,000 pounds through Kiosk Drop-Off Sites. The total pounds of Unwanted Medicine collected during the Reporting Period was 8,995 pounds through Kiosk Drop-Off Sites.

Additionally, MED-Project implemented Mail-Back Services within 90 days of Plan approval for inhalers and injector products via the MED-Project Website and Call Center. MED-Project anticipates the average

pounds per Kiosk Drop-Off Site to increase in 2019 with increasing public awareness of the Program. Refer to section III and IV of this Report for specific collection information.

## **B. Education and Public Outreach Goals**

MED-Project met the Plan's short-term goals and established over five media outlets and performed outreach via print advertisements, digital marketing, social media postings, and email blasts. See Appendix K. Additionally, MED-Project distributed materials, including brochures and posters, to new Kiosk Drop-Off Sites.

MED-Project reached 100% of targeted community contacts during the Reporting Period. The MED-Project Call Center returns voicemails within one business day as provided in the approved Plan. MED-Project returned 28 messages during the Reporting Period within the predetermined time frame.

Baseline MED-Project Website statistics and the media outreach summary for the Reporting Period are provided in Appendix G and Appendix K, respectively. Refer to section VII of the Report for additional outreach information detail.

MED-Project also intends to increase public awareness of the Program in 2019 through the production and placement of animation advertisements on digital campaigns, social media, and broadcast media platforms.

## **X. Program Costs**

*Ordinance Sec. 18C-21(A)(12): "The total expenditures of the stewardship plan during the reporting period"*

The total Program cost for the Reporting Period was \$ 763,227.01.

## Appendix A

### List of Program Participants

The list below includes Program participants in the specified reporting period.

## Safety and Security Report

Section 18C-21(A)(8) of the Ordinance does not define or provide any information or guidance about what constitutes a “safety or security problem.” MED-Project is submitting a report addressing destruction facility usage changes in the context of the regulatory language “safety or security problem” out of an abundance of caution.

### **Event 1:** Change in Unwanted Medicine Mail-Back Package Disposal Facility

**Date:** May 18, 2018 (MED-Project notified the Department of the following events on May 22, 2018.)

**Description:** On Friday, May 18, 2018, MED-Project was notified by its Vendor that mail-back packages were being destroyed at the Vendor’s United States Drug Enforcement Administration registered collector medical waste incinerator located at [REDACTED] Facility”). In addition, the Vendor informed MED-Project on Monday, May 21, 2018, that the Vendor’s mail-back package destruction process located at [REDACTED] had discontinued operation on April 3, 2018. The relevant address change by the Vendor of the mail-back packages went into effect during the first quarter of 2017. The Vendor certified that it managed all MED-Project materials in accordance with applicable legal requirements (certification included with the May 22, 2018 notice).

**Corrective Action:** Upon being notified by the Vendor, MED-Project: (1) suspended Call Center and MED-Project website distribution of mail-back packages to residents; and (2) requested that the Vendor suspend processing of any MED-Project mail-back package at the [REDACTED] Facility and store such packages in compliance with all applicable laws, regulations, and other legal requirements. The Vendor informed MED-Project on May 21, 2018, that it could not suspend the destruction of MED-Project mail-back packages received at the [REDACTED] Facility.

The Vendor notified MED-Project that it had implemented a new change management policy specifically pertaining to any MED-Project scope of work changes.

MED-Project filed a revision request with the Department for the Plan on May 25, 2018, in order to minimize public service disruption. The Plan revision was approved by the Department on June 22, 2018.

### **Event 2:** Change in Disposal Facility for Unwanted Medicine Boxes and Liners (MED-Project notified the Department of the following events on November 26, 2018).

**Date:** November 12, 2018

**Description:** Vendor reported that it could not send kiosk boxes and inner liners containing unwanted medicine (“Unwanted Medicine Liners”) to the primary destruction facility [REDACTED]”), due to destruction appointment cancellations in October 2018. In addition, Vendor reported that [REDACTED] could not provide a confirmed destruction appointment before November 16, 2018, making it necessary to send Unwanted Medicine Liners to the [REDACTED] permitted hazardous waste facility located at [REDACTED] Facility”) and the [REDACTED] Facility for destruction as soon as possible. MED-Project notified the Department that Unwanted Medicine Liners managed as part of the Plan would need to be destroyed at a back-up destruction facility because of these canceled appointments at [REDACTED]. Unwanted Medicine Liners were destroyed at the [REDACTED] Facility on

November 7, 2018, and then at the [REDACTED] Facility on November 12, 2018, because of scheduling and logistical issues at the [REDACTED] Facility. In some cases, these cancellations delayed the destruction of Unwanted Medicine Liners beyond what MED-Project policies require.

**Corrective Action:** Upon being notified of these issues by Vendor, MED-Project: (1) confirmed with Vendor that Unwanted Medicine Liners remained securely stored; (2) requested the complete inventory of impacted Unwanted Medicine Liners; and (3) approved Vendor proposed plans to destroy Unwanted Medicine Liners as soon as practicable at either the [REDACTED] Facility, or at the [REDACTED] Facility, if the [REDACTED] Facility was unavailable.

Vendor notified MED-Project that capacity limits were a contributing factor to the destruction appointment cancellation and that the [REDACTED] facility had reached capacity for taking Unwanted Medicine Liners. MED-Project is working with Vendor to approve additional disposal facilities for MED-Project's Unwanted Medicine Liners in order to reduce the volume of Unwanted Medicine Liners being disposed at [REDACTED] and the [REDACTED] Facility.

# DISPOSAL OPTIONS

## 1 CHECK THE PACKAGE

If there are specific instructions for disposal on the label, package or package insert please follow those instructions. Do not flush medications down the toilet unless specifically instructed to do so.

## 2 CONVENIENT KIOSKS

To find convenient kiosks in your area, visit [www.med-project.org](http://www.med-project.org) for more information.

# What items can I dispose of?

**ACCEPTED:**  
MEDICATIONS IN ANY DOSAGE FORM, EXCEPT FOR THOSE LISTED BELOW, IN THEIR ORIGINAL CONTAINER SEALED BAG.

*If transferring medications to a sealed bag, please be sure to recycle all remaining packaging.*

**NOT ACCEPTED:**  
HERBAL REMEDIES, VITAMINS, SUPPLEMENTS, COSMETICS, OTHER PERSONAL CARE PRODUCTS, COMPRESSED CYLINDERS, AEROSOLS, INHALERS, MEDICAL DEVICES, SHARPS, ILLICIT DRUGS, MERCURY CONTAINING THERMOMETERS, AND IODINE-CONTAINING MEDICATIONS\*.

*\*Visit [www.med-project.org](http://www.med-project.org) for more information on disposal options that may be available in your area.*

# DISPOSAL OPTIONS

## 3 MAIL-BACK

Mail-back services are available in your area. Visit the mail-back section of [www.med-project.org](http://www.med-project.org) to order a mail-back package.

## 4 IN-HOME DISPOSAL

1. Remove medication from its original container and mix with an undesirable substance, such as used coffee grounds, dirt, or kitty litter.

2. Place the mixture in a sealable bag, empty can, or other container and throw in your household trash.\*

To protect your privacy, consumers are reminded to remove all personally identifiable information on prescription labels or materials before using any of the disposal options listed above.

# ¿QUÉ SE DEBE HACER CON LOS MEDICAMENTOS VENCIDOS O NO DESEADOS?

## Programa MED-Project

Educación y eliminación de medicamentos

# ELIMINACIÓN SEGURA DE MEDICAMENTOS VENCIDOS Y NO DESEADOS

*Hay una gran cantidad de maneras para desechar los medicamentos vencidos o no deseados.*

Para obtener más información acerca del programa MED-Project, diríjase a [www.med-project.org](http://www.med-project.org) o llame al 1-844-MED-PROJ

¿Qué se debe hacer con los medicamentos vencidos o no deseados?

Los medicamentos ayudan a tratar enfermedades, a controlar enfermedades crónicas y a mejorar la salud y el bienestar de millones de estadounidenses. Es sumamente importante que los pacientes tomen los medicamentos recetados por el médico y como se indica en la etiqueta o en el envase. También es importante asegurarse de guardar los medicamentos de forma segura, para evitar la ingestión accidental o el mal uso por parte de otras personas en su hogar, especialmente de los niños.

Si tiene medicamentos vencidos o no deseados, es fácil realizar una adecuada eliminación. Para proteger su privacidad, se les recuerda a los consumidores que eliminen toda la información de identificación personal de las etiquetas o materiales de las recetas antes de utilizar cualquiera de las siguientes opciones de eliminación.

(Fuente: U.S. Food and Drug Administration)

*Este material se entrega con el propósito de cumplir con la ley y no refleja necesariamente el punto de vista de MED-Project o de los productores que participan en el plan de administración de productos de MED-Project.*

## Programa MED-Project

Educación y eliminación de medicamentos

[www.med-project.org](http://www.med-project.org)

Figure 10: MED-Project Brochure Front (Spanish)

# OPCIONES DE ELIMINACIÓN

## 1 REVISE EL PAQUETE

Si hay instrucciones específicas en la etiqueta, el envase o en el prospecto de envase, siga tales instrucciones. No tire los medicamentos en el inodoro, a menos que la información del envase lo indique específicamente.

## 2 QUIOSCOS CONVENIENTES

Para encontrar los sitios de recolección dentro de su área, visite [www.med-project.org](http://www.med-project.org).

# ¿Qué elementos se pueden eliminar?

**SE ACEPTAN:**  
LOS MEDICAMENTOS DE CUALQUIER FORMULACIÓN DENTRO DE SU ENVASE ORIGINAL O ENVOLTORIO SELLADO, A EXCEPCIÓN DE LOS QUE SE ENUMERAN A CONTINUACIÓN.

*Si transfiere los medicamentos a un envoltorio sellado, asegúrese de reciclar todos los envases.*

**NO SE ACEPTAN:**  
REMEDIOS A BASE DE HIERBAS, VITAMINAS, SUPLEMENTOS, COSMÉTICOS U OTROS PRODUCTOS DE CUIDADO PERSONAL, CILINDROS COMPRIMIDOS, AEROSOLES, INHALADORES, DISPOSITIVOS MÉDICOS, ELEMENTOS PUNZANTES, DROGAS ILÍCITAS NI MEDICAMENTOS QUE CONTENGAN YODO.

# OPCIONES DE ELIMINACIÓN

## 3 DEVOLUCIÓN POR CORREO

Los servicios de devolución por correo de medicamentos no deseados están disponibles a solicitud para los residentes. Visite [www.med-project.org](http://www.med-project.org) para solicitar un paquete de devolución por correo.

## 4 ELIMINACIÓN DENTRO DEL HOGAR

1. Saque el medicamento de su envase original y mézclelo con una sustancia indeseable, tales como desechos de café, suciedad o arena sanitaria.

2. Coloque la mezcla en una bolsa hermética, lata vacía o en otro envase y tírela junto con la basura doméstica.\*

Para proteger su privacidad, se les recuerda a los consumidores que eliminen toda la información de identificación personal de las etiquetas o materiales de las recetas antes de utilizar cualquiera de las opciones de eliminación indicadas anteriormente.
