EMERGENCY CALL SCREENING PROCEDURE

Follow the flow chart below during call questioning, if the incident has been reported as: **BREATHING PROBLEMS** or **SICK PERSON**.

ASK:

Do you have a fever, cough, difficulty breathing, gastrointestinal symptoms including abdominal pain, nausea/vomiting and/or diarrhea?

If, NO, then

In the past 14 days, have you had contact with a person KNOWN to be infected with Coronavirus or who is currently undergoing testing for the Coronavirus?

If, NO, then

Notify all responding units that: PATIENT MEETS ATD ADVISORY CRITERIA, FOLLOW PHD PPE GUIDELINES

No further action needed.
