Healthcare Partner/EMS Provider Coordination Conference Call

COVID-19

July 16, 2020
8:30 – 9:30 am all facilities/agencies
Purpose of Partner Conference Call

• Assure and coordinate situational awareness between partners and PHD/EMSA
• Share best practices to prevent spread of COVID-19
• Discuss and confirm guidance to assure health care worker and patient safety
• Identify resource shortages and determine solutions
• Promote coordinated and efficient response to protect the community
Agenda

I. Situation Update
II. Updated Guidance
III. Resources, Supply Chain & Request Process
IV. Questions? Additional Issues?
## COVID-19 Situation Update - Santa Barbara County

PHD Department Operations Center (DOC)

**Open Monday-Friday - 8:00 am - 5:00pm**

- After hours email and phone
- Provides additional staff to carry out PHD objectives
- Respond to cases and provider/public information requests
- Coordinates contact tracing and additional testing
- Orders and prioritizes resources for distribution
- Supporting symptomatic homeless individuals with alternate sheltering
- Supporting individuals in hotels that are unable to isolate at home or have been discharged from the hospital

NEW: #COVID19 cases continue to spread at alarming rates.

CA is now closing indoor operations STATEWIDE for:

- Restaurants
- Wineries
- Movie theaters, family entertainment
- Zoos, museums
- Cardrooms

Bars must close ALL operations.

12:04 PM • Jul 13, 2020
30 Counties Required to Close Additional Services

NEW: As #COVID19 cases and hospitalizations continue to rise, 30 counties will now be required to CLOSE INDOOR OPERATIONS for:

- Fitness Centers
- Places of Worship
- Offices for Non-Critical Sectors
- Personal Care Services
- Hair Salons and Barbershops
- Malls

12:07 PM · Jul 13, 2020
HEALTH OFFICER ORDER MODIFIED TO CLOSE ADDITIONAL BUSINESS SECTORS IN SANTA BARBARA COUNTY

(SANTA BARBARA, Calif.) — In response to the State Public Health Officer Order on July 13, 2020, Santa Barbara County Health Officer, Dr. Henning Ansorg has issued a Health Officer Order mandating the closure of additional indoor business operations. This guidance is effective at 5 p.m., July 14, 2020 and will continue until 5 p.m. on August 12, 2020 or until it is extended, rescinded, superseded, or amended in writing.

As required by the Health Officer Order the following sectors must close indoor operations:

- Gyms and Fitness centers;
- Places of Worship;
- Protests;
- Offices for non-essential critical infrastructure;
- Personal care services, such as nail salons, massage parlors, and tattoo parlors;
- Hair salons and barbershops
- Malls

Outdoor operations of the above listed sectors may continue, if outdoor operations are allowed by the licensing or permitting authority. Outdoor operations may be conducted in a tent, canopy or other sun shelter as long as the sides are not closed.

https://countyofsb.org/uploadedFiles/phd/PROGRAMS/Disease_Control/Corona/HOO%202020-12-5.pdf
CDPH Updated Testing Guidance

**Tier One Priority**
- Hospitalized individuals with COVID-19 symptoms.
- Investigation and management of outbreaks, under direction of state and local public health departments (includes contact tracing).
- Close contacts of confirmed cases.

**Tier Two Priority**
- All other individuals with COVID-19 symptoms.
- Individuals who are asymptomatic (having no symptoms of COVID-19), who fall into one of the following categories:
  1. Live in higher risk congregate care facilities including skilled nursing facilities, residential care facilities for the elderly, correctional facilities, or homeless shelters.
  2. Work in the health care sector who have frequent interactions with the public or with people who may have COVID-19 or have been exposed to SARS-CoV-2. The health care sector includes: hospitals; skilled nursing facilities; long-term care facilities; ambulatory surgery centers; health care providers’ offices; health care clinics; pharmacies; blood banks; dialysis centers; hospices; and, home health providers
  3. Work in a congregate care facility, including shelters for people experience homelessness and residential care facilities for the elderly.
  4. Provide care to an elderly person or a person with a disability in the home, including a person providing care through California’s In-Home Supportive Services Program.
  5. Work in the emergency services sector who have frequent interactions with the public or with people who may have COVID-19 or have been exposed to SARS-CoV-2. The emergency services sector includes police and public safety departments, fire departments, and emergency service response operations.
  6. Work in a correctional facility.
  7. Patients requiring pre-operative/pre-hospital admission screening.
  8. Patients being discharged from hospitals to lower levels of care.

CDPH Updated Testing Guidance

Tier Three Priority

- Individuals who work in the retail or manufacturing sectors who have frequent interactions with the public or who works in an environment where it is not practical to maintain at least six feet of space from other workers on a consistent basis.
- Individuals who work in the food services sector who have frequent interactions with the public. The food services sector includes grocery stores, convenience stores, restaurants, and grocery or meal delivery services.
- Individuals who work in the agricultural or food manufacturing sector who have frequent interactions with the public or who works in an environment where it is not practical to maintain at least six feet of space from other workers on a consistent basis. The agricultural or food manufacturing sector includes food production and processing facilities, slaughter facilities, harvesting sites or facilities, and food packing facilities.
- Individuals who work in the public transportation sector who have frequent interactions with the public. The public transportation sector includes public transit, passenger rail service, passenger ferry service, public airports, and commercial airlines.
- Individuals who work in the education sector who have frequent interactions with students or the public. The education sector includes public and private childcare establishments; public and private pre-kindergarten programs; primary and secondary schools; and public and private colleges and universities.

Tier Four Priority

Tier Four would be implemented when the state’s testing turnaround time, as monitored by CDPH, is less than 48 hours.

- Other individuals not specified above including: those who are asymptomatic but believe they have a risk for being actively infected as well as routine testing by employers.

Implement Universal Use of Personal Protective Equipment

- HCP working in facilities located in areas with moderate to substantial community transmission are more likely to encounter asymptomatic or pre-symptomatic patients with SARS-CoV-2 infection. If COVID-19 is not suspected in a patient presenting for care (based on symptom and exposure history), HCP should follow Standard Precautions (and Transmission-Based Precautions if required based on the suspected diagnosis). They should also:
  - Wear eye protection in addition to their facemask to ensure the eyes, nose, and mouth are all protected from splashes and sprays of infectious material from others.
- Wear an N95 or equivalent or higher-level respirator, instead of a facemask, for:
  - Aerosol generating procedures (refer to Which procedures are considered aerosol generating procedures in healthcare settings FAQ) and
  - Surgical procedures that might pose higher risk for transmission if the patient has COVID-19 (e.g., that generate potentially infectious aerosols or involving anatomic regions where viral loads might be higher, such as the nose and throat, oropharynx, respiratory tract) (refer to Surgical FAQ).
- Respirators with exhalation valves are not recommended for source control and should not be used during surgical procedures as unfiltered exhaled breath would compromise the sterile field.

- For HCP working in areas with minimal to no community transmission, the universal eye protection and respirator recommendations described for areas with moderate to substantial community transmission are optional. However, HCP should continue to adhere to Standard and Transmission-Based Precautions, including use of eye protection and/or an N95 or equivalent or higher-level respirator based on anticipated exposures and suspected or confirmed diagnoses. Universal use of a facemask for source control is recommended for HCP.

<table>
<thead>
<tr>
<th>Level</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Substantial</td>
<td>Large scale community transmission, including communal settings (e.g. schools, workplaces)</td>
</tr>
<tr>
<td>Minimal to Moderate</td>
<td>Sustained transmission with high likelihood or confirmed exposure within communal settings and potential for rapid increase in cases</td>
</tr>
<tr>
<td>No to Minimal</td>
<td>Evidence of isolated cases or limited community transmission, case investigations underway, no evidence of exposure in large communal settings</td>
</tr>
</tbody>
</table>

Transmission in Workplace

Risk of Transmission in Workplace increased by:

- Persons eating together in enclosed space
- Break room activities
- Staff should not socialize without masks on and without social distancing
  - Outdoor areas are safer
- Leaving work together in groups without social distancing
- Commuting together
- Living together
Positive Cases in the Workplace: How employers can help limit the spread of COVID

Employers can prepare and respond to a confirmed or suspected case of COVID-19 by taking the following actions:

1. Refer to the link below for guidance from the California Department of Public Health

https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Workplace-Outbreak-Employer-Guidance.aspx

2. Determine cleaning or disinfection that may be needed. Refer to the link below for guidance to help you determine appropriate actions:

3. Determine which employees may have been exposed to the virus and meet “close contact” criteria.
   - Review CDC definition of a “close contact” or “6-15-48”
     - Persons who are within 6 feet of an infected person, for at least 15 minutes, starting from 48 hours before and 10 days after symptoms of the illness
     - For persons who test positive, but have no symptoms, this period is 2 days prior to testing date plus 10 days
   - CDC defines any non-healthcare personnel who meets the 6-15-48 definition as a close contact, even if cloth face coverings or respiratory personal protective equipment (PPE) is worn.
   - Healthcare workers who are trained in the use of PPE, and wearing personal protective equipment (PPE) during their interaction with a positive case, might not be considered contacts. Guidance can be found here: https://www.cdc.gov/coronavirus/2019-ncov/hep/guidance-risk-assessment-npg.html

4. Create a list of all employees that have positive tests or are close contacts
   - List employee name, date of birth, phone number, dates the employee worked with the positive staff, dates of symptoms, county of residence, shift hours, and job assignment.
   - The list identifies employees who are close contacts and should quarantine for 14 days.
   - The list will assist the Public Health Department in the disease investigation.

5. Inform the health department by phone if there are 3 or more positive cases or employees with symptoms in your workplace: (805)681-5280. Assure that positive employees isolate at home and do not report to work. Information sheets found here provide more information in English and Spanish.

Positives in Workplace

Community-Based Testing Sites

• Locations:
  • **Santa Maria:** Fairpark
  • **Santa Barbara:** Earl Warren
  • **Buellton:** AMR Conference Room- 240 CA-246 Buellton, CA

• Can test approx. 144 at each site each day

• PCR test not serology

• Open 5 days a week. Days and times for appointments will be adjusted based on community needs

• To make appointments:
  • To register online: [https://lhi.care/covidtesting](https://lhi.care/covidtesting)
  • To register by phone: 888-634-1123
  • **For help with registration:** 833-688-5551
COVID-19 Swabbing Training

- Swabbing Training Interest Form- https://app.smartsheet.com/b/form/1a2b16bc39ae4c01918aeb51b5ff645b
- Plan to hold 1 training a week and we hope to move training around county in the future
Assistance with Testing

• PHD has a contract with AMR to assist in transport of positive or suspect patients and testing in the county
• Many SNFs have utilized AMR to assist in testing at their facility during outbreak testing
• Starting June 25, 2020 – facilities that utilize AMR will invoiced by PHD for AMRs time assisting with testing
## Testing in SNF and CDSS Licensed Facilities

<table>

<td>Surveillance (10% of staff) and Outbreak Testing (every 14 days or more often if required by local PHD)</td>
</tr>
<tr>
<td>Requires testing for hospital inpatients prior to discharge</td>
<td>May require testing for inpatient and <strong>ED visits</strong> – PHD requested assistance from CDSS to clarify requirement</td>
</tr>
</tbody>
</table>
Santa Barbara PHD Outbreak Line List

- Used during an outbreak at facility or for surveillance testing
- Fill this out in advance so you are ready when you have an outbreak
- Different tab for staff and residents
- Completed on computer and submit to: dc@sbcphd.org
Outbreak Line List Reminders

• Complete ahead of time (list staff and residents with DOB)
  • Make sure names and birthdays are correct
• Complete electronically and email to dc@sbcphd.org every time you have changes/updates
  • Highlight additions and updates
  • Highlight positives
• Don’t delete anything from your line list
  • Line list provides a complete picture for our disease control and epi staff
  • Make sure you include first positive test
California Health Corps - Requesting Staff

California Health Corps Staff Services Agreement

This Staff Services Agreement (this "Agreement") is made by and between the State of California, as represented by the California Emergency Medical Services Authority (hereinafter the "State"), and ___________ (hereinafter "Facility").

WHEREAS, California is facing a pandemic arising from the spread of the novel coronavirus (COVID-19), including a surge in the number of people who are infected and have COVID-19 (the "Pandemic");

WHEREAS, in response to the Pandemic, the Governor issued a Proclamation of State of Emergency dated March 4, 2020 and Executive Order (EO) N-25 dated March 12, 2020 (collectively, and as may be further expanded from time to time, the "Emergency Declaration and Executive Order");

WHEREAS, all agencies of the state government are required to perform any and all activities consistent with the direction of the State, pursuant to the Emergency Declaration and Executive Order;

WHEREAS, certain facilities are experiencing a surge in patients or staffing shortages as a result of the Pandemic;

WHEREAS, maximizing the number of qualified healthcare workers in service in California is imperative to ensure that Californians impacted by COVID-19 can access care;

WHEREAS, the State, in accordance with the Emergency Declaration and Executive Order, has established the California Health Corps to ensure adequate staff for treatment sites experiencing staffing impacts due to the Pandemic;

WHEREAS, the Facility, as a result of the Pandemic, requires additional healthcare workers and desires to use Registered Nurses, Licensed Vocational Nurses, or Certified Nurses Assistants registered with the State’s California Health Corps (hereinafter "Nurses") to meet the needs of the Facility’s patients;

WHEREAS, the State and the Facility desire to set forth in writing the terms and conditions of their agreements and understandings;

Supplemental Staffing Request Information

Requestor Details

- Date of Request:
- Request Point of Contact:
- Requestor Email:
- Requestor Phone:

Requesting Facility Details

- Facility Name:
- Facility Type:
- County:
- Total Facility Capacity:
- Number of Free, Patient-Ready Beds:
- Does the Facility Currently Have COVID-19 Positive Patients (yes/no):

Deployment Details

Requested Deployment Dates:

Requested kind of staff and number of each:

- Staff classification (eg. RN, LVN, CNA) | Number

Total Number of Staff Requested:
Resources and Supply Chain

Current supply chain issues/shortages
- N95s
- Procedure masks
- Isolation gowns
- Hand sanitizer
- Gloves
- Eye protection
- Healthcare disinfecting wipes

PHD PPE Distribution:
- Requests reviewed on Monday
- Pick or delivery will occur on **Tuesday**
- **Urgent requests can be picked up on other days**
- Urgent needs please call 805-681-5253 or email operations.medicalbranch@sbcphd.org
To request resources:
[http://www.countyofsb.org/phd/epp/forms.sbc](http://www.countyofsb.org/phd/epp/forms.sbc)

- No 1870s or 1860s N95s available for distribution
- PHD placed an order for isolation gowns to the state and hope to receive them next week
Battelle N-95 Decontamination System

• Free of cost to healthcare facilities
• Uses vaporous hydrogen peroxide to decontaminate each compatible N95 up to 20 times

1. Sign- Each facility that wants to participate will sign a service agreement with Battelle Systems
2. Label- Battelle will assign your facility a unique 3-digit identifier that you will label N95s with using a permanent marker
3. Collect- Collect all N-95s for decontamination in single plastic bag then double bag
4. Ship- Clean outside of bag and place in an appropriately labeled shipping box, along with chain of custody form and contact UPS to pick up
Battelle N-95 Decontamination System

Situation Report Forms for Healthcare Partners

Situation Report Forms
All Updated 3/24/20 for the use during COVID-19 response.

We ask that all facilities/agencies complete a situation report weekly or whenever you need to submit a resource request.

Outpatient Provider Situation Report Forms:
- Urgent Care
- Ambulatory Surgery Center Situation Report
- Home Health & Hospice Agency Situation Report
- FTS Provider Situation Report

Inpatient Provider Situation Report Forms:
- Hospital Situation Report
- Skilled Nursing Facility/CORI-Related Facility Situation Report

Non-Medical Situation Report Form:
- Non-Medical Situation Report

Resource Request Process
Requests for PPE and other scarce medical resources are going through our Scarce Medical Resource Committee. All organizations wanting to make a resource request will need to complete a situation report. Once the situation report is completed you will be automatically linked to the resource request form. We will not backtrack requests or do partial fills for requests. Organizations will need to submit a new request if they do not receive all the supplies that they need.

- Complete situation report weekly and whenever you do a resource request
- Access resource request form is in sit rep
- Different situation reports based on your facility or agency type
- If you have questions about which one to fill out let us know!
